

PROJECT FACT SHEET

- Project Title:** 07-092, Wall Triana Improvements – Madison Blvd. to Cleghorn Blvd.
- Project Purpose:** To improve the quality of the existing asphalt pavement as well as enhancing the overall efficiency of the intersection. Due to the high volume of traffic North and Southbound the asphalt has failed. Traffic on Madison Blvd Eastbound turning Southbound onto Wall Triana has increased causing the stack lane to back-up into the through traffic.
- Scope of Work:** Mill and repave Wall Triana Hwy beginning north of Madison Blvd. extending to Cleghorn Blvd. Re-stripe new pavement to ensure safety as well as functionality of roadway. Provide additional turning lane for Madison Blvd. eastbound to Wall Triana southbound. Install ceramic markers to direct traffic where needed.
- Status:** Construction will begin Tuesday September 14th and continue for approximately 3 weeks. The majority of the work will be done between the hours of 6:00 p.m. and 6:00 a.m.
